The Education and Training Committee of the Association is charged with the development and ongoing management of the continuing education program. The committees comprised of professional psychologists, most of whom teach or have taught in graduate psychology programs at accredited universities, are expert in their fields. The Association's 42 year history of scholarship and leadership reflect the responsibility built into its infrastructure. Its track record of providing chapter members across the country and internationally with psychological expertise above and beyond their graduate education in all areas of the field of psychology is deeply appreciated, widely respected, and well known. service delivery and addressing the long standing psychological and related social needs of persons of Black/African Ancestry, The Association has engaged in program planning, training, advocacy, and provision of training in psychological service delivery and related services to all psychologists, though the emphasis has been on populations of African Ancestry.

Its primary objectives are: to promote and advance the delivery of professional services to African/ Black people; develop programs enhancing best practices and cultural competence while increasing conceptual and applied competencies in areas of psychology; as well as advocate for equity and social justice. The ABPsi is at the cutting edge of best practices in optimal psychology, liberation psychology, and has played an influential role in the development of feminist psychology.

The Education and Training Committee of The ABPsi is uniquely positioned to evaluate, approve the design and delivery of course offerings, accredit potential providers, and evaluate the proficiency of the courses to meet post licensure criteria for psychologists renewing licenses throughout the country, and particularly in California. In 2002, The ABPsi initiated its Licensure Certification and Proficiency Program (LCPP) in African Centered Black Psychology at its International Convention in San Diego, California and offered MCEP. The LCPP, responsible for assuring certification in African Centered/Black Psychology proficiency of applicants, is responsible for identifying clinical practice proficiencies in research literature, skill sets, theory, best practices and other resources areas necessary to successfully prepare psychologists in demonstrating aptitude, practice, knowledge, skill and ability in providing best practices for clinicians working with African Ancestry persons and the general population. At that time, MCEP was offered first through the Southern California Association of Black Psychologists and since through one of its member's provider status. This collaboration was initiated when California psychologists were only allowed to receive mandatory continuing education credit through the MCEP Accrediting Agency. As the only independent African American psychological association in the nation, The ABPsi maintains its self-determinating capacity to be an "accrediting agency" approved by the California Board of Psychology.

The Association of Black Psychologists, in keeping with the discipline's professional standards, had formally established its continuing education activities foundation by the following:

1. July, 1992 at the Western Regional Retreat in Huntington Beach, California developed a blue print for high quality continuing education and training components for psychologists to meet the diverse psychological needs of African people at the local, national and international levels.
2. June, 1993 - Expanded and refined the blue print for a vibrant Continuing Education and Training component to be implemented on the national level. Instituted the African Psychology Institute and

Professional Development Committees which participated in formulating the plans for the August, 1993 meeting.

3. August, 1993 – the Continuing Education and Training Program was formally instituted to be integrated into the 1994 National Convention. Pre-convention professional development workshops for psychologists' licensure renewal were started.
4. January, 1994 - The Association of Black Psychologists Continuing Education and Training Program Model was proposed.

The ABPsi MCEP administrator/s have the responsibility of insuring that at minimum, continuing education activities meet criteria set by the California Board of Psychology and The Association of Black Psychologists' mission in providing the highest quality post-graduate activities necessary to meet the needs of psychologists in clinical, research, teaching, community, school and other related areas of psychology for re-licensure, academic and institutional appointments and other educational certifications programs.

Administrative continuity for The ABPsi MCEP in California will be insured by the program administrators under the direction of The Education and Training Committee Co-Chairs. The California Board of Psychology and The ABPsi MCEP policies and procedures will be contained in a manual that will serve as a guide in administering the accrediting process. The policy manual will contain the California Board of Psychology regulations related to mandatory continuing education for psychologists, be regularly reviewed and updated.

The approval sponsor’s status during the reconsideration process or appeal shall remain as it was prior to the adverse decision.

Request for Reconsideration of Approved ABPsi Sponsors or Applicant -

When reconsideration of an adverse decision is desired, the written request for reconsideration shall be submitted to the ABPsi E&T Committee by the ABPsi approved sponsor within 30 days following the date of receipt of the notification letter detailing the basis for denial.

Conditions for Reconsideration

1. Basis of reconsideration - the information that was before the ABPsi E&T Committee only at the time of its initial decision.

2. No new or revised information from the approved ABPsi sponsor or applicant will be accepted at the time of reconsideration.
3. All materials in support of the reconsideration must be submitted in accordance with the appropriate application time line.

The ABPsi E&T Committee will decide reconsiderations at the next regularly scheduled meeting and there will be no additional cost to the ABPsi sponsor or applicant. Following reconsideration, which results in the initial decision being upheld, the ABPsi sponsor or applicant may request a hearing before an appeal panel.

Appeal - Filing an Appeal. An ABPsi sponsor or applicant may challenge an adverse decision within 30 days of receipt of written notice of the ABPsi E&T Committee's adverse decision on reconsideration. The appeal must be based only on the foundation that the ABPsi E&T Committee's decision was:

- (1) subjective, unreliable or otherwise not in accordance with the standards and criteria and the procedures of the ABPsi E&T Committee; or
- (2) not supported by substantial evidence. The request for appeal shall include a statement of reasons for appealing the decision of the ABPsi E&T Committee.
- (3) Any issue not specified in the original request for appeal will not be considered on appeal. The appeal should be addressed to the current chair or co-chairs of ABPsi E&T Committee.
- (4) A nonrefundable appeal fee will be charged to the petitioner or petitioning organization. This fee is to be submitted with the petitioner's or petitioning organization's letter of appeal.
- (5) If the request is not received within the 30 day period, the decision of the ABPsi E&T Committee shall be considered final.

2. Appointment of an Appeal Panel

Within 60 days of receipt of the ABPsi sponsor or applicant's letter of appeal, the ABPsi E&T Committee will appoint a non-bias panel of three (3) potential appeal panel candidates and provide this list to the ABPsi sponsor or applicant for review. Panel members shall have had no prior connection with the ABPsi sponsor or applicant or with the approval process related to the ABPsi sponsor or applicant. Panelists need not have a particular specialty or be from a particular geographic location. Within 30 days, the ABPsi sponsor or applicant may challenge any of the designated panelists for due cause (e.g., conflict of interest, bias, or other prejudicial infirmity). If due cause is found and the named panel candidate is unacceptable, an alternative will be selected in the same manner as the initial panelists and a replacement will be named. The replacement may also be challenged for due cause. This procedure will be used until three (3) acceptable panelists have been selected. If the ABPsi sponsor or applicant does not notify the ABPsi E&T Committee of any objections within 30 days, the ABPsi E&T Committee will accept and approve designated members to serve on the appeal panel.

The ABPsi E&T Committee's decision should not be reversed by the appeal panel unless such decision was found to be subjective, unreliable or otherwise not in accordance with the standards and criteria and the procedures of the ABPsi E&T Committee; or the decision was not supported by substantial evidence. The appeal panel should not substitute its judgment for that of the ABPsi E&T Committee because it would have reached a different decision had it heard the matter originally. If the appeal panel identifies issues requiring a legal interpretation of the ABPsi E&T Committee's procedures or other legal issues are raised, those issues need to be referred for resolution to the ABPsi legal counsel and not be resolved by the appeals panel.

1. The panel will be provided with only those documents reviewed by the ABPsi E&T Committee in making its decision: the letter that notified the ABPsi sponsor or applicant of the ABPsi E&T

Committee's decision, the letter of appeal, written statements submitted by the ABPsi sponsor or applicant, and replies to statements submitted by the ABPsi E&T Committee.

2. The procedural and substantive issues addressed by the appeal panel will be limited to those stated in the ABPsi sponsor or applicant's appeal letter. Only the facts or materials that were before the ABPsi E&T Committee, at the time of its final decision, and information submitted as part of a request for reconsideration may be considered by the panel.
3. The letter of appeal and written statements shall not refer to facts or materials that were not presented before to the ABPsi E&T Committee.
4. Any additional information supplied by the ABPsi sponsor or applicant in a written statement cannot describe new components of the ABPsi sponsor/ applicant or changes made subsequent to initial review/action. Any, new information, will not be considered by the appeal panel.
5. The aforementioned materials must be provided at least 30 days before the date of the appeal hearing.

At a date and time acceptable to all parties, the appeal panel will convene a hearing via conference call. If the ABPsi sponsor or applicant wishes an in person hearing, e.g., exceptional circumstances, this would need to be documented, yet this may take place at the entire expense of the ABPsi sponsor or applicant. The expense would include travel, housing and appropriate compensation for the three panel members one or more ABPsi sponsor or applicant representatives, one or more representatives from the ABPsi E&T Committee, and staff of the ABPsi E&T Committee.

Separate legal counsel, with all expenses paid, may also accompany either party. When legal counsel attends and participates in the hearing, it is with the understanding that counsel recognizes that the proceedings are not a judicial forum, but a forum to review the ABPsi E&T Committee's decision in terms of procedural violations or substantive error. ABPsi's legal counsel will also attend the hearing. In addition to advising ABPsi, the counsel has responsibility to assure compliance with the *Association of Black Psychologists, Education and Training Committee Policies & Procedures Manual* and may resolve legal or procedural issues or can advise the panel. At the hearing:

1. The ABPsi sponsor or applicant's representative, including counsel, shall first present arguments regarding issues raised on appeal.
2. The ABPsi E&T Committee's representative shall be allowed to ask questions and make the ABPsi E&T Committee's presentation.
3. After questions of the ABPsi E&T Committee's representative by the ABPsi sponsor or applicant, both sides shall be allowed closing statements.
4. The appeal panel may depart from this format should considerations of fairness so require.
5. The appeal panel shall also be free to interrupt with questions of its own during any part of the hearing.
6. The burden of proof shall lie with the ABPsi sponsor or applicant.

4. Decisions and Report of the Appeal Panel

The decision of the appeal panel shall be by majority vote. The ABPsi E&T Committee's decision should be affirmed unless such decision was:

- subjective, unreliable or otherwise not in accordance with the standards and criteria and the procedures of the ABPsi E&T Committee; or
- not supported by substantial evidence. The appeal panel shall have the power to grant full or conditional approval, to deny approval, to terminate approval, or to order further proceedings of the ABPsi E&T Committee.

The report of the appeal panel will:

- State its decision and the basis of that decision based on the evidence before the panel.

- Be addressed to the President of ABPsi and sent within 30 days of the hearing. Copies will be provided to the ABPsi sponsor or applicant, the Chair of the ABPsi E&T Committee.
- The appeal panel decision may also be shared with the full ABPsi E&T Committee and the ABPsi Board of Directors in certain circumstances.
