§ 1397.62 Continuing Education Exemptions and Exceptions (relevant portions only)
 This section shall be applicable to a license that expires on or after, or is reinstated or issued on or after, January 1, 2013.

At the time of making application for renewal of a license, a psychologist may as provided in this section request an exemption or an exception from all or part of the continuing education requirements.

(b) An exception to the requirements of Business and Professions Code section 2915(d)¹ may be granted to licensed psychologists who are not engaged in the direct delivery of mental health services for whom there is an absence of available continuing education courses relevant to their specific area of practice.

(2) Licensees seeking this exception shall provide all necessary information to enable the Board to determine the lack of available approved continuing education and the relevance of each course to the continuing competence of the licensee. Such a request shall be submitted in writing and must include a clear statement as to the relevance of the course to the practice of psychology and the following information:

(A) Information describing, in detail, the depth and breadth of the content covered (e.g., a course syllabus and the goals and objectives of the course), particularly as it relates to the practice of psychology.

(B) Information that shows the course instructor's qualifications to teach the content being taught (e.g., his or her education, training, experience, scope of practice, licenses held and length of experience and expertise in the relevant subject matter), particularly as it relates to the practice of psychology.
