

About us

Established in 1987, the Health Professions Education Foundation (HPEF) is the state's only non-profit foundation statutorily created to encourage persons from underrepresented communities to become health professionals and increase access to health providers in medically underserved areas. Supported by grants, donations, licensing fees, and special funds, HPEF provides scholarship and loan repayment programs to students and graduates who agree to practice in California's medically underserved communities. Housed in the Office of Statewide Health Planning and Development, HPEF's track record of delivering health providers to areas of need has resulted in approximately 10,911 awards totaling more than \$124 million to allied health, nursing, mental health and medical students and recent graduates practicing in 58 of California's 58 counties.

Mission Statement

The Health Professions Education Foundation (HPEF) improves access to healthcare in underserved areas of California by providing scholarship and loan repayment programs to health professional students and graduates who are dedicated to providing direct patient care in those areas. In return for this support, recipients agree to provide direct patient care in a medically underserved area (MUA) of California for a period of one to three years.

Program Name - Professions Supported	Award Amount	Service Obligation	Maximum # of Awards

Tracie Hall-Burks, LCSW
Mental Health Loan Assumption
Program Awardee

Saving Lives Daily

"This opportunity, as an awardee, has allowed me to see the light at the end of the tunnel. As a 2004 Masters of Social Work graduate I have officially been paying student loans for 10 years. In the mental health field there is such a huge need, yet service providers are limited due to the amount of work and the low pay range. In other words, it's not a field you go into if you plan on being rich! This makes it difficult to justify the thousands of dollars spent in obtaining the education needed to do the work we so dearly love. Thank you for this opportunity to help lighten the financial load as I continue to remain dedicated to servicing the underserved populations, saving and changing lives daily. This award allows me to focus more on my own family without having to face financial stress."
