224 a) 16 CCR section 1395.2 – Discussion and Possible Action on Proposed Changes to  
225 Language to the Disciplinary Guidelines and Uniform Standards Related to Substance-  
226 Abusing Licensees  
227

228 It was (M)Tate(S)Cervantes(C) to accept the changes as written, namely to make the  
229 psychological evaluation an optional term rather than a standard term of probation,  
230 clarifying the two-year tolling provision, adding new provisions to allow voluntary license  
231 surrender with reinstatement petitions permitted after three years for surrenders not  
232 related to mental or physical illness or one year for surrenders due to mental or physical  
233 illness, standardizing probation terms to a consistent period of up to five years, and  
234 shortening the time frame to secure a practice monitor from ninety to sixty days.  
235

236 Dr. Casuga called for Board comment.  
237

238 Dr. Harb Sheets expressed her disagreement with the provision to reduce the amount of  
239 time to identify a practice monitor from ninety to sixty days, as well as the provision to  
240 require a psychological evaluation as a standard condition of probation.  
241

242 Ms. Mancilla commented that the original proposal was to reduce the time from ninety to  
243 thirty days, until the Enforcement Committee offered a compromise with sixty (60) days  
244 being standard.  
245

246 Dr. Cervantes asked about situations where the probationer had not selected a practice  
247 monitor by the end of the allowed time.  
248

249 Mr. Burke commented that these instances would be considered on a case-to-case  
250 basis.  
251

252 Dr. Harb Sheets asked whether a practice monitor could meet through video rather than  
253 in person.  
254

255 Mr. Phillips commented that video meetings would be acceptable.  
256

257 Dr. Tate asked whether contact would have had to have been made within the sixty  
258 days, or whether it was sufficient for the probationer to provide the name of the practice  
259 monitor.  
260

261 Mr. Phillips replied that providing the name during that time would be sufficient.  
262

263 No further Board comment was offered.  
264

265 Dr. Casuga called for public comment.  
266

267 Dr. Elizabeth Winkelman of California Psychological Association (CPA) commented that  
268 she appreciated the Board's inclusion of many of CPA's requested revisions in the draft  
269 of the Disciplinary Guidelines. She voiced support for increasing the amount of time up  
270 to ninety (90) for a probationer to identify a practice monitor. She said CPA would still

271 like to see the Spectrum of Administrative Actions incorporated by reference into the  
272 Disciplinary Guidelines.

273

274 Dr. Robert Teal expressed his support for the points brought up by Dr. Winkelman,  
275 especially the incorporation of the Spectrum of Administrative Actions. He asked the  
276 Board to consider including a category of moderate disciplinary actions as a midpoint  
277 between minimum and maximum actions.

279 No further public comment was offered.

280

281 Dr. Tate left the meeting at 9:25 am.

282

284 Actions to the Disciplinary Guidelines.

285

286 Mr. Burke replied that it would be possible to do so, if the Board so desired.

295 section 1395.2 and the form incorporated by reference [while maintaining the time  
296 allotted to identify a practice monitor at ninety (90) days], to direct staff to submit the text  
297 to the Director of the Department of Consumer Affairs and Business Consumer Services  
298 and Housing Agency for review, and if no adverse comments are received, to authorize  
299 the Executive Officer to take all the necessary steps to initiate the rulemaking process,  
300 make any non-substantive changes to the package, such as the table of contents as

545

546 Ms. Mancilla provided the update on this item, starting on page 91 of the meeting  
547 materials.  
548

549 Dr. Casuga asked for clarification on the steps staff is currently taking on the bills with  
550 an active position.  
551

552 Ms. Mancilla explained that five of the six bills approved by the Governor require the  
553 board to produce advisories to its licensees, and then to update all sections of the  
554 website affected by these bills.  
555

556 Mr. Burke commented that staff has procedures in place so that preliminary steps are  
557 taken to make changes to BreEZe and communicate with stakeholders as soon as the  
558 bill becomes effective.  
559

560 Dr. Casuga asked whether these procedures could be shared with stakeholders, and  
561 Mr. Burke confirmed that these documents do exist and were available to be shared.  
562

563 Dr. Casuga called for further Board comment.  
564

565 Dr. Cervantes commented that the Board should continue to monitor SB 579 (Padilla)  
566 as well as any legislation that relates to the use of artificial intelligence in the practice of  
567 psychology.  
568

569 Mr. Burke explained the internal process by which staff determines what level of  
570 attention any particular legislation should receive, namely whether to maintain a watch  
571 position, or take an active support position.  
572

573 Dr. Casuga commented that the shaping of legislation is a community effort, and that  
574 the Board is always willing to consider taking positions on bills submitted by  
575 stakeholders.  
576

577 Dr. Casuga called for further Board comments.

**Agenda Item #23: Update and Discussion on the Development of the Integrated Examination for the Professional Practice in Psychology**

Mr. Burke provided the update on this item, starting on page 22 of the first set of the Hand Carry materials packet.

624

625 Dr. Harb Sheets asked Mr. Burke for insights on how a 2027 implementation of the  
626 IEPPP might proceed, if that is when ASPPB launches the examination.

627

628 Mr. Burke commented that any new examination would have to be scrutinized by the  
629 Office of Professional Examination Services to ensure the test complied with current  
630 Codes, and then there would be the legislative and regulatory process, all of which  
631 would have to occur within a tight window of time before the examination launched.

632

633 Dr. Harb Sheets commented that one of the issues arising from the implementation of  
634 the IEPPP would be how it changes the timeline when an individual would be authorized  
635 to take the examination; currently, an individual can take the examination when they  
636 complete the coursework, but ASPPB is suggesting that the IEPPP would not be taken  
637 until all of the post-doctoral internship hours were completed.

638

639 Mr. Burke commented that the rationale for changing the law was to shorten the time  
640 when an individual would be eligible to take the examination, since pass rates in  
641 California were so low; it was hoped that taking the examination sooner after completing  
642 the coursework would support a higher passing rate for California examinees.

643

644 Ms. Cheung commented that part of the delay in implementation was ASPPB's abrupt  
645 abandonment of the IEPPP, which caused the Board to have to revisit what it had  
646 previously approved.

647

648 Dr. Harb Sheets stressed the importance of the Board keeping ahead of the changes  
649 and maintaining a clear vision rather than being in reactionary mode to whatever  
650 ASPPB decides.

651

652 Dr. Casuga commented that ASPPB should be made aware of California's timelines,  
653 especially considering how large a part of ASPPB's membership is here.

654

655 Mr. Burke commented that staff could put together an implementation timeline to share  
656 at the February 2026 Board meeting.

657

658 Dr. Harb Sheets called for further Board comment.

659

660 No further Board comment was offered.

661

662 Dr. Harb Sheets called for public comment.

663

664 Dr. Winkelman of CPA commented that CPA had sponsored AB 282 with the goal of  
665 allowing individuals to take the examination after they had completed all of their  
666 coursework. She said that one way to support that goal would be to allow for states to

667 decide what prerequisites would be required for examination rather than having ASPPB  
668 mandate eligibility based on their own standards.

669

670 Dr. Laura Cuba-Miller asked what was ASPPB's intent in creating the IEPPP.

671

672 Dr. Harb Sheets explained ASPPB's stated purpose in developing the IEPPP.

673

674 No further public comment was offered.

682

683 Dr. Harb Sheets called for public comment.

684

685 Anna Medina asked whether the Board would support psychologists prescribing in  
686 California at some future point.

687

688 Mr. Burke commented that there were additional written public comments, which could  
689 be found in the hand carry materials packets.
